

TRACY JENSEN

Occupation: Director, Alameda Health Care District/Mother/ Senior Services Administrator

My education and qualifications are: Positions in local, state and federal government agencies laid the foundation for my election to public office, where my record of accomplishments has improved the lives of Alameda children, youth, families and seniors. I am proud to have served two terms on the School Board, ensuring that Bayport developers helped to pay for construction of Ruby Bridges Elementary School and leading the adoption of elementary curricula designed to teach children to be more accepting of their peers' diverse and unique families. As a founding member of Alameda Collaborative for Children, Youth and Families, I developed community partnerships to reduce bullying and encourage academic success. On the board of the Alameda Soccer Club and Alameda Youth Basketball I established recreational programs and activities to keep kids active and safe. Under my leadership as Director, Alameda Hospital's stroke center was nationally recognized for quality care, and I made Alameda Healthcare District a partner with the Alameda Fire Department's innovative CARE program supporting residents facing a mental health crisis. I hired 2 superintendents and 3 health system CEOs, allowing each of them to do their job without interference. I grew up here and my "Alameda values" are inclusivity, transparency, and responsiveness. With your support we will build responsibly, develop new jobs, protect our Island environment, and ensure ethical city government. www.TracyJensen2022.com
