Problem Statement

AUSD operates K-12 schools with severe enrollment imbalances that are not fiscally solvent, and which do not maximize our resources to support equity and excellence across our education programs.

Task Force Charge

- Develop a fiscally solvent structural system
- Ensure that system is long-term and sustainable
- Maintain core academic programs that ensure our students will graduate high school
- Connect grades K-12 program pathways
- Provide key opportunities for two-way communication between task force and representative stakeholder group

Proposed Problem Statement and Task Force Charge

Problem Statement

In the absence of consistent and adequate funding, coupled with severe enrollment imbalances, AUSD is no longer able to support excellence and equity without restructuring our K-12 educational programs.

Task Force Charge

- Examine and recommend alternative facility and program configurations that are fiscally sustainable.
- Align core academic programs that ensure our students will graduate with the ability to pursue college and career pathways
- Connect grades K-12 program pathways via standards while providing choices/options for the school community (staff, parents, students)
- Provide two-way communication between task force and representative stakeholder groups
